Stock rating

The Average Score combines six components (Earnings, Fundamental, Relative Valuation, Risk, Price Momentum, Insider Trading) on a 1–10 scale, 10 being most favourable. Scores of 8–10 are positive, 4–7 neutral and 1–3 negative. Each component is a decile rank (equal-sized buckets) of the company within its sector cohort across the S&P 500 universe; the Average Score is the simple mean of the available components.
