Business Summary

SAP SE, together with its subsidiaries, provides enterprise application and business solutions worldwide. It offers SAP Business AI; SAP S/4HANA that provides software capabilities for finance, risk and project management, procurement, manufacturing, supply chain and asset management, and research and development; SAP SuccessFactors solutions for human resources, including HR, time, payroll, talent and employee experience management, and analytics and planning; and spend management solutions that covers direct and indirect spend, travel and expense, and external workforce management. The company also provides SAP customer experience solutions; SAP Business Technology platform that enables customers and partners to build, integrate, and automate applications; and SAP Business Network, a business-to-business collaboration platform that helps digitalize key business processes across the supply chain and enables communication between trading partners. In addition, it offers SAP Signavio to help customers to discover, analyze, and understand business process operations; industry solutions that provide customers and partners with industry-specific solutions; and SAP LeanIX to visualize enterprise architecture, assess interdependencies and the potential impact of IT modernization, and manage the transition toward the target landscape. Further, the company provides WalkMe to execute workflows; SAP Enable Now, which offers e-learning content embedded in SAP workflows; Taulia solutions for working capital management; and sustainability solutions and services. Additionally, it provides services and support solutions. The company has a strategic collaboration with Fresenius SE & Co. KGaA and Avelios Medical GmbH for the development of a cloud-native, hospital information system that enables digitalization of clinical and administrative processes with AI integration. SAP SE was founded in 1972 and is headquartered in Walldorf, Germany.

Stock rating

The Average Score combines six components (Earnings, Fundamental, Relative Valuation, Risk, Price Momentum, Insider Trading) on a 1–10 scale, 10 being most favourable. Scores of 8–10 are positive, 4–7 neutral and 1–3 negative. Each component is a decile rank (equal-sized buckets) of the company within its sector cohort across the S&P 500 universe; the Average Score is the simple mean of the available components.

Component weights

Component	Weighting
Fundamental pillars	25% each (renormalised if a pillar is missing; dividend pillar dropped for non-payers)
Relative Valuation	Price/Sales, trailing P/E, forward P/E: 33.3% each
Risk	Magnitude of returns, volatility, beta, correlation: 25% each
Price Momentum	Relative strength 50%, seasonality 50% (seasonality pending in this build)
Earnings	Surprises, estimate revisions, recommendation changes: equal weight
Insider Trading	Short-term 70%, long-term 30%

Fundamental ratios

Profitability	
Revenue Growth	(Net Sales - Previous Net Sales) / Previous Net Sales
Gross Margin	Gross Profit / Net Sales
Return On Equity	Net Income / Total Equity
Net Margin	Net Profit / Net Sales

Debt	
Current Ratio	Current Assets / Current Liabilities
Debt To Capital	Total Debt / Total Capital
Interest Funding	(Interest Expense on Debt + Preferred Cash Dividends) / Funds from Operations
Interest Coverage	EBIT / (Interest Expense on Debt + Preferred Cash Dividends)

Earnings Quality	
Operating Cash Yield	(Operating Cash Flow - Net Income) / Net Income
Accruals	(Net Income - Operating CF - Investing CF) / Average Net Operating Assets
Days Sales Inventory	365 / (COGS / Inventory)
